

STANDARD FEATURES

- Manufactured in US
- **Tray and tray-less application**
- Suitable for curve layout applications
- Belt is fully supported on UHMW belt guides on the tabletop and return side for a smooth belt operation
- All 304 stainless steel construction with a #4 finish
- Low Friction - Acetal Polymer overlapping slats joined together with a heavy duty stainless steel pin with high breaking strength of over 900 lbs
- Modular drive cabinet with integral belt wash and easily accessible external scrap basket
- Stainless steel sloped drip pans with flushing nozzles for a clean ability. Auto timer option available for drip pan flushing nozzles
- Adjustable speed control in NEMA 4 control cabinet with programmable AC inverter
- Unit supported on 1-5/8" diameter 16 gauge wall polished stainless steel tubular legs with fully welded 1-5/8" cross bracing
- Multiple belt width options available with single or dual belt configuration
- Smooth operation with low amp draw

Slat Belt - CS Series

CS107 – Single 7.5" Belt

CS110 – Single 10" Belt

CS207 – Dual 7.5" Belt

CS210 – Dual 10" Belt

CS SERIES BELT DESIGN

Bi-line CS series belt conveyor is designed for tray or trayless application. Smooth operation with multiple belt width options for cafeteria drop-off and busing conveyor applications. Our CS series slat belt is joined together with heavy duty stainless steel pins with breaking strength of over 900 lbs.

SPECIFIER STATEMENT

Specified Unit will be Bi-line Model CS Series belt conveyor. Low Friction - Acetal Polymer belt with each slat joined together by heavy duty stainless steel pin with a high breaking strength of over 900 lbs. Belt to be fully supported on UHMW guides along the entire length at table top and return. Sloped belt return drip pan with flushing nozzles. Modular drive cabinet with integral belt-wash and easily accessible external scrap basket.

OPTIONS & ACCESSORIES

- Custom size and shape per plan
- Single over-shelf
- Double over-shelf
- Hip/Palm advance button
- Foot advance switch
- Integral sloped scrapping trough
- Mobile tables
- Pre-rinse sink with rinse spray
- Cantilevered sliding work shelves
- Limit switch – mechanical
- Limit switch – photo eye
- Seismic bolt down feet
- Mobile silverware soak sink
- Stainless steel removable lift-off panels or hinged access doors at soiledware drop-off section
- Sight and sound enclosure with recessed LED lights
- Skate wheels or stub roller sections for trough
- Wash down hose reel
- Trough magnets
- Trough bridges
- Disposer cover for trough
- Trough silver saver sink with magnet and lever drain

Due to an ongoing value analysis program at Bi-Line, specifications contained in this catalog are subject to change without notice.
